Onconova Therapeutics Announces Participation in the Channelchek Takeaway Series

January 26, 2023

NEWTOWN, Pa., Jan. 26, 2023 (GLOBE NEWSWIRE) -- Onconova Therapeutics, Inc. (NASDAQ: ONTX), a clinical-stage biopharmaceutical company focused on discovering and developing novel products for patients with cancer, today announced their participation in the Channelchek Takeaway Series from the J.P.Morgan Healthcare Conference, to be broadcast Thursday, January 26, starting at 10:00 EST.

The J.P. Morgan Healthcare Conference is considered to be the most important healthcare investment symposium in the industry, connecting global industry leaders, emerging fast-growth companies, innovative technology creators, and members of the investment community. Noble Capital Markets' equity analysts and investment bankers attended the conference and sat down with various c-suite executives. For the Channelchek Takeaway Series, Noble's analysts are unpacking what they learned at the conference and talking to a selection of c-suite executives in the healthcare space.

Steven M. Fruchtmann, MD, President and Chief Executive Officer of Onconova, provides a corporate overview, then takes questions from Noble's Senior Analyst Robert LeBoyer.

The event will be broadcast starting at 10:00 am EST on Thursday, January 26. Investors can attend the Channelchek Takeaway Series virtually at no cost. Registration details are available on Channelchek.

About Onconova Therapeutics, Inc.

Onconova Therapeutics is a clinical-stage biopharmaceutical company focused on discovering and developing novel products for patients with cancer. The Company has proprietary targeted anti-cancer agents designed to disrupt specific cellular pathways that are important for cancer cell proliferation.

Onconova's novel, proprietary multi-kinase inhibitor narazaciclib (formerly ON 123300) is being evaluated in two separate and complementary Phase 1 dose escalation and expansion studies. These trials are currently underway in the United States and China. Based on preclinical and clinical studies of CDK 4/6 inhibitors, Onconova is also planning a combination trial of narazaciclib with estrogen blockade in advanced endometrial cancer, as well as its clinical study in additional indications.

Onconova's product candidate rigosertib is being studied in multiple investigator-sponsored studies, including a dose-escalation and expansion Phase 1/2a study of oral rigosertib in combination with nivolumab in patients with KRAS+ non-small cell lung cancer, and a Phase 2 program evaluating rigosertib monotherapy in advanced squamous cell carcinoma complicating recessive dystrophic epidermolysis bullosa.
